

CONTENTS OF VOLUME 40

AUGUST—Continued

	PAGE
Pernicious Anemia and Tropical Sprue. E. A. Baumgartner, M.D., and Glenn D. Smith, Clifton Springs, N. Y.....	203
Hypoglycemia and the Toxic Effects of Insulin. George A. Harrop, Jr., M.D., Baltimore .....	216
The Spectrophotometric Determination of Hemoglobin. George E. Davis, A.M., and Charles Sheard, Ph.D., Rochester, Minn.....	226
Effect of Exercise on Respiratory Exchange in Heart Disease: II. J. M. H. Campbell, M.D., and F. J. Sale, M.B., London, England.....	237
Book Reviews .....	251

SEPTEMBER, 1927. NUMBER 3

Lobar Pneumonia: A Clinical and Bacteriologic Study of Two Thousand Typed Cases. Russell L. Cecil, M.D.; Horace S. Baldwin, M.D., and Nils P. Larsen, M.D., New York.....	253
The Coronary Circulation. Fred M. Smith, M.D., Iowa City, Ia.....	281
Basal Metabolism in Vitamin B Starvation. Seizaburo Okada, M.D.; Eiichi Sakurai, M.D.; Tsukio Ibuki, M.D., and Harutoshi Kabeshima, M.D., Tokyo, Japan.....	292
Exophthalmic Goiter and the Involuntary Nervous System: XIII. The Course of the Subjective and Objective Manifestations of Exophthalmic Goiter in Fifty Unselected Patients. Observations for Five Years Without Institution of "Specific" Therapeutic Measures ("Spontaneous Course"). Leo Kessel, M.D., and Harold Thomas Hyman, M.D., New York .....	314
Blood Groups in Tuberculosis. Theophile Raphael, M.D.; Olive M. Searle, M.S., and Tom N. Horan, M.D., Ann Arbor, Mich.....	328
The Occurrence and Significance of Electrocardiograms of Low Voltage. Frederick A. Willius, M.D., and Wendell A. Killins, M.D., Rochester, Minn. ....	332
Primary Carcinoma of the Lungs: Further Study, with Particular Attention to Incidence, Diagnosis and Metastases to the Central Nervous System. B. M. Fried, M.D., Boston.....	340
Changes in the Kidney in Animals with Increased Blood Pressures While on High Protein Diets. Franklin R. Nuzum, M.D., Santa Barbara, Calif. ....	364
Yellow Atrophy of the Liver: Acute, Subacute and Healed. J. D. Wilson, M.D., and E. W. Goodpasture, M.D., Nashville, Tenn.....	377
Pollinosis: Constitutional and Local Factors. Warren T. Vaughan, M.D., Richmond, Va. ....	386
Book Reviews .....	397

OCTOBER, 1927. NUMBER 4

Problems of Diseases of the Joints. Friedrich von Mueller, M.D., Munich, Germany .....	399
Contractions of Gallbladder Seen in Man. Samuel Levine, M.D., Brooklyn	420
Effect of Experimental Pyloric Stenosis on Gastric Secretion. A. C. Ivy, M.D.; E. H. Droege Mueller, M.D., and J. L. Meyer, M.D., Chicago	434
The Effects of Mitral and Tricuspid Incompetence on the Work of the Heart. D. T. Barry, M.D., Cork, Ireland.....	446

CONTENTS OF VOLUME 40

OCTOBER—Continued		PAGE
Diseases of the Liver: VII. Further Studies in Experimental Obstructive Jaundice. Albert M. Snell, M.D.; Carl H. Greene, M.D., and Leonard G. Rowntree, M.D., Rochester, Minn.....		471
Normal Variations in White Blood Cells Under Conditions of Minimal Metabolism. Richard P. Stetson, M.D., Boston.....		488
Natural Mineral Waters in the Light of Modern Research: The Catalytic Action of the Saratoga Springs. Oskar Baudisch, Ph.D., and David Davidson, Ph.D., New York.....		496
Motion of the Heart in Disease of the Mitral Valve: Cinematographic Roentgen-Ray Studies. W. Edward Chamberlain, M.D., and William Dock, M.D., San Francisco.....		521
Material from Lymph Nodes of Man: I. Method to Obtain Material by Puncture of Lymph Nodes for Study with Supravital and Fixed Stains. Claude Ellis Forkner, M.D., Boston.....		532
Diabetes Mellitus: Incidence and Certain Etiologic Factors. Julius Friedenwald, M.D., and Theodore H. Morrison, M.D., Baltimore.....		538
Experimental Uremia. Edmund Andrews, M.D., Chicago.....		548
Book Reviews .....		571

NOVEMBER, 1927. NUMBER 5

The Splanchnoperipheral Balance During Chill and Fever. William F. Petersen, M.D., and Ernst F. Müller (Hamburg), Chicago.....		575
The Monocytes in Pneumonia: A Clinical and Hematologic Study. R. A. Hickling, M.B. (Cantab.), New York.....		594
Action of Drugs on Cardiac Output: IV. Effects of Camphor and Strychnine on the Cardiac Output of Intact Unnarcotized Dogs. Charles P. Wilson, M.D.; Tinsley Randolph Harrison, M.D., and Cobb Pilcher, M.D., Nashville, Tenn. ....		605
Pollen Allergy: II. The Genesis of Skin Hypersensitiveness in Man. R. W. Lamson, M.D., and Hyman Miller, M.D., Los Angeles.....		618
Exophthalmic Goiter and the Involuntary Nervous System: XVI. The Influence of Subtotal Thyroidectomy with and Without Compound Solution of Iodine on the Course of the Disease. Leo Kessel, M.D., and Harold Thomas Hyman, M.D., New York.....		623
Water Metabolism: V. Effect of Varying Degrees of Hydration on Sugar Metabolism. Edmund Andrews, M.D., and Karl W. Schlegel, Chicago		637
Material from Lymph Nodes of Man: II. Studies on Living and Fixed Cells Withdrawn from Lymph Nodes of Man. Claude Ellis Forkner, M.D., Boston .....		647
Insulin Reactions. Lee Foshay, M.D., Cleveland.....		661
The Problem of the Iron Reserve: An Experimental Study. Charles Spencer Williamson, M.D., and Harold N. Ets, M.S., Chicago.....		668
Diabetes Mellitus: Report of a Case Refractory to Insulin. Bertrand Y. Glassberg, M.D.; Michael Somogyi, M.D., and Albert E. Taussig, M.D., St. Louis.....		676
Vital Capacity of Chinese Students. C. H. McCloy, New York.....		686
The Oral Administration of Epinephrine. William C. Menninger, M.D., Topeka, Kan. ....		701
